Introduction

The South Jersey Area H&I Subcommittee is responsible to carry the NA message of recovery into hospitals and institutions where an open meeting is not possible, due to their rules and regulations that conflict with our traditions. This committee may use other methods, such as distribution of literature and meeting lists to make the message of recovery available.

The area H&I subcommittee plays a central role in the overall H&I service effort. It initiates, coordinates and conducts all local NA hospitals and institutions meetings and activities within the area. This subcommittee is the hub of H&I planning and organization.

The area H&I committee is a subcommittee of the area service committee (ASC). It meets regularly on the third Sunday of each month at 6:00pm at St. Charles Borromeo, 176 Stagecoach Road, Turnersville, NJ 08021. (*Except for holidays that fall on that specific Sunday, such as Fathers Day and Easter, the meeting will be held on the fourth Sunday of the month) It's chair reports to and is accountable in all matters to the ASC. The subcommittee is composed of an H&I Chairperson, H&I Vice Chairperson, H&I Secretary, H&I Vice Secretary, Literature Coordinator and other elected officers, as well as any other members of the fellowship who wish to be involved.

Commitment to the Language of Recovery

Commitment to the language of recovery in our meetings is also an important issue. In order to remain consistent with our traditions and to insure that the message we carry is a clear, consistent message of recovery in NA; we refer to ourselves simply as “addicts”, not “drug addicts”, not “addicts and alcoholics”, not “junkies”, not “dope fiends” just as ADDICTS. We refer to our time in the program as “clean”, “clean time” or “recovery”; not “sobriety”, not “clean and sober”; just CLEAN, CLEAN TIME and RECOVERY. A mixed message is a confusing message. If this is something that you feel you can not do, then maybe you are not suited for H&I service in Narcotics Anonymous.

Yearly Reallocation of H&I Subcommittee Commitments

1. All commitments are reallocated each January.
2. Each commitment is a yearly commitment. Commitments are assigned at the January subcommittee meeting and end at the following January subcommittee meeting.
3. If a committee member has had a commitment assigned at the July subcommittee meeting or afterward, they are permitted to keep that commitment. They must be present at the yearly reallocation meeting or contact the H&I Chairperson in order to keep that commitment.
4. The following is the order in which commitments are reallocated:
 1. Current Subcommittee members who have had a commitment, assigned at the June Subcommittee meeting or before, and have fulfilled it successfully.
 2. Members who do not currently have a commitment or have had a commitment since July or sooner and have chosen not to continue it.
5. Within the above guidelines, commitments are allocated in order of clean time, beginning with the addict with the most clean time.

H&I Learning Day / Workshop

1. The purpose of an H&I Learning Day is to educate the members of the fellowship about Hospitals & Institutions work. Learning days are one way to prepare the NA member to carry the message to addicts who do not have full access to regular NA meetings. We have learning days so that we may benefit from the collective experience of other NA members.
2. Learning days are held to better educate NA members who will gain a better understanding of H&I procedures. It is also a forum to keep H&I members informed of updated H&I materials, projects and to generate interest in H&I work other than panel presentations.
3. Learning days provide our new members the opportunity to understand H&I work as a vital and positive part of their recovery. H&I is where many members found hope and usefulness in the fellowship. At these types of events, we have the opportunity to pass that hope on to others.
4. It is the responsibility of the SJ Area H&I Subcommittee to conduct at least one learning day/ workshop per year to educate members about H&I.
5. When scheduling a learning day/ workshop be sure that the function is not scheduled at the same time as other local events, so that as many members of the local fellowship as possible can take part.
6. When conducting a workshop, a flyer should be created to inform the local fellowship and other H&I subcommittees outside of the area/region.
7. Choose qualified members to speak and/or to lead discussions and question and answer sessions.
8. Consult "Hospitals and Institutions: Handbook" page 68-69 for a list of discussion topics.

Information on Starting New Commitments in New Facilities or Existing Facilities

1. The initial approach to start a new H&I meeting/presentation should be made through an H&I Subcommittee. Don't ever act alone.
2. H&I meetings/ presentations are held in facilities where addicts do not have full access to regular NA meetings.
3. When the local members of groups see the need for an H&I presentation at a facility, the local H&I subcommittee should be contacted. H&I panels are a function of the H&I subcommittee. Individuals should not take it upon themselves to do H&I work in facilities that the South Jersey Area H&I Committee dont serve.
4. One important factor is the degree to which the residents are restricted from outside meetings. Addicts who have full access to regular NA meetings usually do not require H&I services. If they are completely restricted from outside meeting attendance they should be high on the priority list.
5. Another factor is the length of time that a facility has been waiting for the subcommittee to bring in an H&I meeting/ presentation.
6. After considering these other factors, the decision is up to the subcommittee.
7. The Subcommittee should not make a commitment to start an H&I meeting until it is capable of being responsible to that commitment.
8. If the subcommittee sees the need for H&I in a facility that isn't currently being served, the H&I Chairperson should send out letters to facilities introducing them to NA and offering to hold an H&I meeting/ presentation in their facility. It is advisable to have it printed on letterhead stationary and be a typewritten formal letter, with examples of NA literature enclosed. (Have Secretary keep copies on file of all letters sent.)
9. The next step is to find out who is the appropriate administrative person to contact. All calls or letters of inquiry should be addressed to that person.
10. If a facility is interested in an H&I meeting/ presentation, you should then schedule an interview before the first H&I presentation, to make arrangements, in person, the proper procedures and expectations.
11. Once these steps have been taken and the H&I meeting/ presentation is being held in the facility, it is important to keep an open channel of communication between the facility and South Jersey Area H&I Subcommittee.
12. Secretary keeps an updated list of each facility including times, days and members.
13. Make sure the group is ready for the responsibility. Don't be afraid to say "No, we're not able to support a meeting in your facility at this time." Don't take on additional commitments until the subcommittee is ready.
14. If you find that you have over committed yourselves, go to the facility and let them know that you need to discontinue the meeting for a while. They will respect you more for letting them know face to face rather than just stop showing up.
15. When a facility approaches the H&I subcommittee and asks us to bring an H&I presentation into their facility, it needs to be brought before the H&I subcommittee, discussed, and then voted on. The group conscious of the subcommittee members will make the right decision.

Narcotics Anonymous World Service Board of Trustees Bulletin #29

Regarding Methadone and other Drug Replacement Therapies

This bulletin was written by the World Service Board of Trustees in 1996. It represents the views of the board at the time of writing.

Not all of us come to our first NA meeting drug free. Some of us were uncertain about whether recovery was possible for us and initially came to meetings while still using. Others came to their first meetings on drug replacement programs such as methadone and found it frightening to consider becoming abstinent.

One of the first things we heard was that NA is a program of complete abstinence and "The only requirement for membership is the desire to stop using." Some of us, upon hearing these statements, may have felt that we were not welcome at NA meetings until we were clean. But NA members reassured us that this was not the case and we were encouraged to "keep coming back." We were told that through listening to the experience, strength, and hope of other recovering addicts that we too could find freedom from active addiction if we did what they did. Many of our members, however, have expressed concern about individuals on drug replacement programs. Questions come up regarding such individuals' membership status, ability to share at meetings, lead meetings, or become trusted servants on any level. "Are these members clean?" they ask. "Can one really be a 'member' and still be using?"

Perhaps by answering the most important question first—the issue of membership—we can establish a context by which to approach this issue. Tradition Three says that the only requirement for NA membership is a desire to stop using. There are no exceptions to this. Desire itself establishes membership; nothing else matters, not even abstinence. It is up to the individual, no one else, to determine membership. Therefore, someone who is using and who has a desire to stop using, can be a member of NA.

Members on drug replacement programs such as methadone are encouraged to attend NA meetings. But, this raises the question: "Does NA have the right to limit members' participation in meetings?" We believe so. While some groups choose to allow such members to share, it is also a common practice for NA groups to encourage these members (or any other addict who is still using), to participate only by listening and by talking with members after the meeting or during the break. This is not meant to alienate or embarrass; this is meant only to preserve an atmosphere of recovery in our meetings.

Our Fifth Tradition defines our groups' purpose: to carry the message that any addict can stop using and find a new way to live. We carry that message at our recovery meetings, where those who have some experience with NA recovery can share about it, and those who need to hear about NA recovery can listen. When an individual under the influence of a drug attempts to speak on recovery in Narcotics Anonymous, it is our experience that a mixed, or confused message may be given to a newcomer (or any member, for that matter) For this reason, many groups believe it is inappropriate for these members to share at meetings of Narcotics Anonymous.

It may be argued that a group's autonomy, as described in our Fourth Tradition, allows them to decide who may share at their meetings. However, while this is true, we believe that group autonomy does not justify allowing someone who is using to lead a meeting, be a speaker, or serve as a trusted servant. Group autonomy stands only until it affects other groups or NA as a whole. We believe it affects other groups and NA as a whole when we allow members who are not clean to be a speaker, chair a meeting, or be a trusted servant for NA.

Many groups have developed guidelines to ensure that an atmosphere of recovery is maintained in their meetings. The following points are usually included:

- Suggesting that those who have used any drug within the last twenty-four hours refrain from sharing, but encouraging them to get together with members during the break or after the meeting.
- Abiding by our fellowship's suggested clean time requirements for service positions.
- Seeking meeting leaders, chairpersons, or speakers who help further our primary purpose of carrying the message to the addict who still suffers.

We make a distinction between drugs used by drug replacement programs and other prescribed drugs because such drugs are prescribed specifically as addiction treatment. Our program approaches recovery from addiction through abstinence, cautioning against the substitution of one drug for another. That's our program; it's what we offer the addict who still suffers. However, we have absolutely no opinion on methadone maintenance or any other program aimed at treating addiction. Our only purpose in addressing drug replacement and its use by our members is to define abstinence for ourselves.

Our fellowship must be mindful of what kind of message we are carrying if a still-using addict leads a meeting, or becomes a trusted servant. We believe that under these circumstances we would not be carrying the Narcotics Anonymous message of recovery. Permissiveness in this area is not consistent with our traditions. We believe our position on this issue reinforces our recovery, protects our meetings, and supports addicts in striving for total abstinence.

Note: This bulletin addresses the use of methadone maintenance as a drug replacement strategy. It is not addressing the medicinal use of methadone as a pain killer. We encourage those who have concerns about the use of methadone in pain management to refer to Narcotics Anonymous pamphlet, In Times of Illness.
